Training Session 3: Quiz

1. 1. Can you describe why the FPIC process is an important tool and why it is important in relation to the project context?

    _____

    _____

    _____

    _____

    _____

2. 2. What does the FPIC agreement include?

    _____

    _____

    _____

    _____

    _____

3. 3. Which of the 9 points of implementation do you think might need particular attention in your context?

    Mark only one oval.

    ◯ Ensuring your team includes those capable of conducting the FPIC process

    ◯ Obtaining initial consent to proceed

    ◯ Developing communication and information strategies

    ◯ Creating a partnership with participating communities on their terms (Community Protocol)

    ◯ Designing the Sapelli App according to local understandings

    ◯ Starting the Formal FPIC process, based on local processes of decision making, and ensuring inclusivity

    ◯ Recording and formalising the process of obtaining consent

    ◯ Maintaining the relationship on which consent is based

4.   3.1. Why do you think this/these point(s) of implementation will need particular attention in your context?

_____

_____

_____

_____

_____

5.   4. Think about the Cameroon case study. What do you think worked well?

_____

_____

_____

_____

_____

6.   4.1. Think about the Cameroon case study. What do you think could be improved or revised?

_____

_____

_____

_____

_____

7.   5. What is the purpose of community protocols?

_____

_____

_____

_____

8.   6. Which of these questions might form part of a community protocol?

Mark only one oval.

( ) What are the roles of community members?

( ) Who is able to read and write?

( ) What will the data be used for?

( ) Will there be a type of remuneration/motivation for the community?

( ) What is the best way to handle a situation where somebody's identity is exposed?

9.   7. Which format do you think would work best for developing community protocols in the context you will be working in (e.g. meetings, mapping, interviews, role-plays, ceremonies)?

_____

_____

_____

_____

_____

10.   8. Imagine you have developed a community protocol with a community which stipulates that data should not be shared with outsiders. A year later, a friend working for a human rights NGO asks you if they can see a handful of datapoints taken by the community. What do you do?

_____

_____

_____

_____

_____

11. 9. Why might you want to use stakeholder mapping for a project?

Mark only one oval.

- ◯ To get more funding
- ◯ To identify who the different groups of people involved in the project are
- ◯ To address issues the community idenitifies
- ◯ To find out the best place for collecting caterpillars
- ◯ To understand what the expectations are of each group

12. 10. Who do you think are likely to be the stakeholders in your context?

_____

_____

_____

_____

_____
